ELLIOTT'S FLOWER SEEDS

All Flower Seeds are Sent Prepaid by Mail

Achillea Ptarmica "The Pearl"

A fine, tall, erect-growing plant, which is perennial and should be in every garden. Its height is 2 feet, and it produces bunches of double, white flowers on strong stems; a good plant for cutting.....Pkt. \$0 10

Aconitum Napellus (Monkshood)

A hardy perennial, growing about 3 feet, bearing long spikes of hood-shaped, blue flowers; good for partial shade.....05

Acroclinium, Everlasting

This is a pretty "everlasting" annual, growing about 15 inches high, bearing daisy-like flowers; if cut in the bud state and dried, the flowers can be used in winter bouquets. Sow seed out-of-doors when all danger of frost is past.

Double Mixed.....Pkt. \$0 05
Single Mixed.....05

Ageratum

A very popular, summer bedding annual plant; stands hot weather well, and produces large clusters of small, feather-like flowers in great profusion; popular for edgings. Seed is usually started in hot-bed and transplanted out-of-doors in May.

Blue Perfection. Large trusses; deep blue; 9 inches.....Pkt. \$0 10
Imperial Dwarf White. 8 inches.....05
Imperial Dwarf Blue. Clear blue; 8 inches.....05
Little Blue Star. Very dwarf, 4 to 5 inches; covered with bright blue flowers.....25

Alyssum

A most popular annual for edging or rockwork; very fragrant. Sow in open ground when frost is past.

Little Gem. Dwarf, compact habit and profuse bloomer, lasting a long time in bloom. Extra good for edging beds of other flowers.....Pkt. oz. 75 cts...\$0 05

Sweet Alyssum (Maritimum). The popular Sweet Alyssum; very fragrant.....05

Saxatile compactum. A perennial variety for beds or edging, and is fine for use in the rock-garden; flowers golden yellow.....10

Anchusa Italica, Dropmore Variety

A hardy perennial of robust growth; 4 feet; becoming more popular every year; bears long heads of bright blue flowers.....15

Alyssum, Little Gem

Amarantus

These are decorative foliage plants of great value; being annuals, they can be sown out-of-doors, or started early inside and transplanted out later.

Caudatus (Love-Lies-Bleeding). 3 feet. Drooping racemes of scarlet flowers.....Pkt. \$0 05

Tricolor (Joseph's Coat). 2½ feet. Foliage bronze-green, scarlet and gold.....05

Cruentus (Prince's Feather). Flowers feathery; dark red.....05

Antirrhinum (Snapdragon)

This is a most popular and fine perennial, which blooms the first season from seed sown in February under glass. A sowing can also be made in May out-of-doors. These plants will bloom about September, and if protected well in the winter will grow very luxuriantly and throw enormous spikes of bloom the following season. The Snapdragon of late years has been used very largely for forcing under glass, and makes a fine show during the winter months.

Giant Scarlet.....Pkt. \$0 10
Giant White.....10
Giant Yellow.....10
Giant Pink.....10
Giant Mixed.....¼oz. 25 cts...10

LARGE-FLOWERING HALF DWARF

Cottage Maid. Pale coral-pink.....15
Bonfire. A lovely orange-color.....15
Queen of the North. Pure white.....10
Golden Queen. Rich yellow.....10
Scarlet King. Rich scarlet.....15
Mixed.....¼oz. 25 cts...10

Anthemis Kelwayi

A handsome perennial, 2 feet high, bearing daisy-like blossoms of golden yellow; excellent for cutting.....10

Aquilegia (Columbine)

A most popular hardy perennial, easily grown and blooming early; good for cutting. Sow seed in the open ground in spring; the plants like moisture and partial shade. A sowing can also be made in August and September

Chrysantha. Long-spurred, large, golden yellow flowers. 3 ft..Pkt. \$0 10
Cærulea. The beautiful Rocky Mountain blue. 3 feet.....10
Long-spurred Hybrids. A magnificent strain, comprising all possible colors; of robust growth; large flowers with long spurs. 25
Double Mixed.....¼oz. 20 cts...05

Arabis alpina (Rock Cress)

An early spring-flowering perennial, of dwarf habit, attaining a height of 6 inches, suitable for edging or rockeries; it produces an abundance of pure white blossoms; very pretty.....15

Arctotis grandis

A very pretty annual, growing 2 to 3 feet high, bearing flowers on long stems, resembling daisies, being of a glistening white on the upper surface and pale lilac on the reverse side. Seed can be sown early indoors and transplanted out as soon as weather is warm; by doing this they will bloom in July. A sowing can also be made out-of-doors. The flowers last a long time when cut.. 10

Asperula odorata (Woodruff)

A small perennial, creeping plant; dark green foliage, with white flowers. Its odor when cut and dried is very pleasant... 05

Asters

These are among the most popular summer and autumn flowers grown; from July to September some of them are seen in nearly every garden. They are easily grown and prefer a heavy, loamy soil, deeply dug and well prepared with some bone meal and air-slaked lime mixed in. For early blooming, the seed should be started in the hotbed, house or cold-frame in April, transplanting the seedlings later, as soon as all danger of frost is past, to the place where they are to bloom. For late blooming they can be sown out-of-doors in a well-prepared bed and transplanted; they can also be sown where they are to remain by thinning out; but they do better by transplanting. They are usually planted about 1 foot apart each way for massing in a bed; if you want them in rows, make the rows 2 feet apart and set the plants 1 foot apart in the rows.

Bed of Asters

Queen of the Market

One of the most popular and really the best Aster for early blooming; branching habit; height 15 inches; usually in bloom two to three weeks earlier than any of the others. The flowers are large, very full

Branching Asters

QUEEN OF THE MARKET ASTERS, continued

and beautifully formed, being between the stiff-petaled kinds and the fluffy, very much incurved and twisted sorts.

King Asters

These are a distinct class in themselves. They are of a branching habit; the flowers are borne on stiff stems about 12 inches high; the flowers are quilled somewhat and are folded lengthwise; very double, the center being nicely incurved.

Violet, Lavender, Rose and White.....each, \$0 20

Daybreak (Shell-Pink), Purity (Snow-White)

These two varieties are very popular; the flowers are very double and ball-shaped. They bloom in the second-early class and are of upright growth; last a long time after cutting. Each, pkt. 15 cts.

Single-Flowered Asters

Recently these have been increasing in demand greatly, the large, single blooms, showing the centers, are excellent for decoration.

Chinese. Mauve, Crimson, Blue, Rose-Pink, White and Mixed. Each, pkt. 10 cts.

HARDY PERENNIAL ASTER (Michaelmas Daisy). Mixed. Pkt. 10 cts.

Balloon Vine

A quick-growing, annual climber; likes light soils; flowers Pkt. are white, and the seed-vessels similar to small balloons; pretty foliage.\$0 05

Balsam, Camellia-Flowered (Lady Slipper)

We offer the improved strain of these old-fashioned favorites. The seed can be started indoors in April, or sown out-of-doors later; leave about 18 to 24 inches between each plant to grow good specimens.

White	Crimson	Salmon
Yellow	Scarlet	Mixed
Each, pkt. 10 cts.		

Balsam Apple and Balsam Pear

See Momordica, page 10.

Campanula Medium (Canterbury Bells)

Begonias

The Semperflorens varieties are quicker growers than the Tuberous-rooted, but the flowers are not to be compared; these small-flowered varieties are excellent and are used extensively for edging borders and beds; they also bloom nicely in the winter in pots.

Semperflorens, Erfordia. Rosy carmine.	Pkt. \$0 15
Semperflorens gracilis luminosa. Fiery scarlet; reddish brown foliage.	25
Semperflorens, Vernon. Deep scarlet, with bronze foliage.	15
Semperflorens, Mixed. Splendid colors.	10

Bellis (Daisy)

A choice little perennial which, if covered during the winter with leaves or straw, will stand the cold. Easily raised from seed. Sowings can be made from early spring till August. Used principally for edging beds, borders or in rockeries.

Double Rose.	Pkt. \$0 10
Double White.	10
Double Mixed.	10

Brachycome (Swan River Daisy)

A dwarf-growing annual; very floriferous, producing daisy-like flowers in various colors. Sow out-of-doors when all danger of frost is past.

Mixed.	Pkt. \$0 05
-------------	-------------

Bryonopsis laciniosa

A good annual climber of the gourd species; ivy-like, green foliage; bears green fruits which change to bright scarlet with white Pkt. stripe. 10 feet.\$0 05

Calendula (Pot Marigold)

An old-fashioned garden annual of easy culture, and a continuous bloomer. Good for mixed borders, it is also grown in pots for winter bloom and is of great value. Sow thickly out-of-doors when all danger of frost is past.

Prince of Orange. One of the best.	Oz. \$0 30	Pkt. \$0 05
Double Sulphur. Light yellow.	30	05
Double White.	30	05
Mixed, all sorts.	25	05

Calliopsis

A very free-flowering annual, suitable for any position and soil, blooming all summer long provided you keep the old flowers pulled off. Sow where the plants are intended to stay, and thin out to about 8 inches apart.

Drummondii (Golden Wave). Deep golden yellow, with small Pkt. brown center. 1 foot.	\$0 05
Marmorata. A tall, golden yellow variety, marbled red.	05
Tiger Star. Rich bronze, tigered and spotted with yellow; very peculiar; twisted petals.	10

Campanula (Canterbury Bells)

These are so popular that we need hardly say much about them. Being biennials, the seed requires to be sown any time from June to September for the following year's blooming. Protect the first winter with leaves or straw. No lover of flowers should be without some Canterbury Bells in his garden, they make such a fine show.

Calycanthema (Cup and Saucer), Rose.	Pkt. \$0 10

Mixed.	05
Medium, Double, Calycanthema and Single varieties, Mixed.	10

PERENNIAL VARIETIES

If sown early, some will bloom the first season; the tall varieties make fine cut-flower plants, while the dwarf sorts make excellent border plants. They like rich, sandy soil.

Carpatica, Blue (Harebell). Very free-flowering, remaining Pkt. in bloom nearly all summer; good for edging. 6 inches.	\$0 10
Carpatica alba, White. Same habit as above, only white. 6 inches.	10
Persicifolia grandiflora, Blue. One of the best, growing 2 to 3 feet; large bells.	15
Persicifolia grandiflora alba. White.	15
Pyramidalis, Mixed (Chimney Bellflower). Pyramids of blue and white flowers, often reaching 6 feet high.	05

Canary-Bird Vine (Tropæolum Canariense)

A very pretty annual climber, with canary-yellow blossoms; very popular.oz. 30 cts.

05

Candytuft

A most popular annual, which is seen in nearly every garden; looks best massed in beds or in thick rows in borders; 1 foot high; grand for cutting. Sow in the open in April.

Empress, White. The finest white variety.	Oz. \$0 40	Pkt. \$0 05

--	----

Clarkia

A very pretty annual of easy culture, and should be grown more extensively, as it is worthy of a place in every garden; it likes partial shade. Sow out-of-doors in early spring, in beds; or it is suitable for borders in groups; useful for cutting.

	Pkt.
Double, Mixed.....	\$0 05
Single, Mixed.....	05

Centaurea imperialis

*Cineraria grandiflora*

Cineraria

This is one of the most brilliant, showy, greenhouse plants in cultivation. If only one sowing is required, July is the best; but seed can be sown any time from May to September for a succession. When the seedlings are large enough to handle, showing the second leaf well, pot up into small pots, and re-pot them into larger ones as they grow, until they are finally placed in those in which they are to flower. They are best grown in a coldframe; make the final potting when bringing them into the greenhouse. Water occasionally with liquid manure, when the plants develop the flower buds, and never let them get dry. Our strains are the very best procurable.

<i>Hybrida grandiflora</i> . Mixed.....	Pkt. \$0 50
<i>Hybrida stellata</i> , Tall. Mixed; star-shaped flowers.....	25

Cleome gigantea (Giant Spider Plant)

A peculiar, tall-growing annual, attaining a height of 3 feet, with branching habit, each branch carrying a cluster of rosy carmine flowers with long, protruding stamens, which give it a spider effect. Suitable for large beds or for dotting through borders.....

10

Cobæa scandens (Cup-and-Saucer Vine)

A popular, very rapid-growing climber, attaining a height of from 20 to 30 feet in a season, covered with large, bell-shaped flowers. Suitable for covering arbors, walls or trunks of trees. Start seed indoors early, say about March, and cover lightly.

White.....	Pkt. \$0 15
Purple.....	10

Coleus

A very ornamental bedding plant, with beautiful, colored foliage; can be grown in the house also. It is a greenhouse perennial but can be grown to perfection the first season from seed. Sow early indoors, in a moist, warm atmosphere, and transplant when the ground and weather are suitable.

Choice Large-leaved Hybrids. Beautiful colorings.....	Pkt. \$0 25
---	----------------

COLUMBINE. See Aquilegia, page 1.

Convolvulus major (Common Morning-Glory)

Very popular, rapid-growing vine, 15 feet, covered with delicately colored flowers; will grow in any situation; of easy cultivation. Pkt.
Tall, Mixed. Single flowers, all colorsoz. 20c... \$0 05
Double-flowering. All colors..... 10
Dwarf, Mixed. These grow only 1 foot high and make a very showy bed, remaining in bloom a long time.....oz. 20c... 05
For other varieties of Morning-Glories, see Ipomæa, page 8.

Coreopsis grandiflora (Perennial Calliopsis)

Without exception, almost, this plant is the best value as a cut-flower in cultivation, having fine, long stems, and lasts a long time cut. It is a perennial, but if sown early indoors in the spring will bloom the first year. Has large, bright yellow flowers; the best of all. Pkt. 10 cts.

Cosmos

This is a very popular, late summer- and autumn-blooming annual. We have two strains, the extra-early flowering and the Mammoth Late. The Cosmos is a great bloomer, robust grower and a splendid cut-flower. The extra-early flowering variety does not produce flowers quite so large as the late, but it flowers much earlier and continues until frost. The seed should be sown in the spring in the open ground when danger of frost is past, and transplant to not less than 18 inches apart, in rows or in beds; when the plants are about a foot high, pinch out the center so as to make them grow in a bushy form.

EXTRA-EARLY FLOWERING

White.....	Pkt. \$0 10

Pink (Lady Lenox).....	10
Crimson.....	10
Mixed.....	1/4 oz. 20c... 10

Cyclamen

A great favorite as a winter and spring greenhouse and window plant. Sow seed in small boxes or pans, in a compost of leaf-mold, rotted manure and sand. The seed is usually sown in the early winter months, and when the young plants have made two leaves prick out into small pots; keep them growing steadily without a check, and they should bloom in ten to twelve months.

<i>Persicum giganteum</i> , Mixed.....	Pkt. \$0 25
<i>Papilio</i> , or Butterfly. Edges of flowers beautifully frilled and waved. Mixed colors.....	25

Cypress Vine (Ipomœa Quamoclit)

This is a very popular annual climber, attaining a growth of about 15 feet. It has very delicate, fern-like foliage and an abundance of small, star-shaped flowers. Sow seed in May, but it should be soaked in warm water for a few hours.

Mixed Colors.....	95
-------------------	----

Mammoth Late Cosmos

Dahlia

Many doubt that these can be bloomed the same year from seed sown in the early spring. We have seen some beauties from seed sown the first of April. The Double sorts, of course, take longer than the Single.

Double Large-flowering, Mixed.....Pkt. \$0 10
Single Large-flowering, Mixed.....15

DAISY. See Bellis, page 3.

Delphinium (Perennial Larkspur)

For Annual Varieties, see Larkspur, page 8.

What is more showy than the beautiful, tall, blue spikes of the Delphiniums standing erect in your mixed border or shrubbery? They are easily grown and adapt themselves to almost any situation. Seed can be sown indoors in early spring or in hotbeds in shallow boxes or seed-pans; transplant into flats about 3 inches apart, and before finally planting them out in the open ground place the flats in the open for a week or so.

Belladonna. One of the prettiest in cultivation; clear turquoise-blue; an almost perpetual bloomer.....Pkt. \$0 25

Chinense, Blue. A compact variety, making loose sprays of gentian-blue flowers.....05

Chinense album. A white variety of the above.....05

Elatum (Bee Larkspur). Rich blue, dark center; 4 feet.....10

Formosum. Brilliant blue, with white center; very striking..10

Formosum coelestinum. Pale blue, with white center.....15

Large-flowering Hybrids. Extra choice, from named single varieties; immense spikes.....15

Zalil. Sulphur-yellow.....25

Digitalis (Foxglove)

A hardy perennial of great value for planting amongst shrubbery and half-shady places. Seed can be sown in the spring, or July and August, and transplanted where desired, or it can be sown where the plants are to remain.

Gloxinioides. This is the finest species, bearing beautifully spotted, large flowers. Pkt.

Purple.....\$0 10

Rose.....10

White.....10

Mixed.....10

Datura cornucopia

(Trumpet Flower, or Horn of Plenty)

A very ornamental annual of bush form, growing about 2½ feet high, bearing large, white-and-purple trumpet-shaped flowers, delightfully fragrant. Sow seed early and transplant out as soon as the ground is warm. Pkt. 10 cts.

Dianthus, or Pinks

The Dianthus family in all its varieties is a popular garden flower. Pinks are especially of exceptional value for cutting and fragrance; they have few rivals. Seed may be sown out-of-doors as soon as all danger of frost is past. The biennial varieties usually survive the winter with a little protection, but the Plumarius varieties are perfectly hardy.

Chinese Double, Mixed. Produces clusters of fine, double flowers in a great variety of color.....¼ oz. 30c. \$0 05

Japanese Double, Mixed. Beautiful colors.....05

Japanese Double, Fireball. Brilliant, dark scarlet; very double.....10

Japanese Double, White.....10

Japanese Double (Mourning Pink). Very dark crimson, fringed white.....10

Japanese Single, Punctatus (Princess Pinks). Beautiful colors, with fringed edges.....10

HARDY GARDEN PINKS (Clove-scented)

Pheasant's Eye. Single, fringed, mixed.....05

Plumarius Double, Mixed. Double Hardy Pinks. Beautiful colors.....10

Plumarius semperflorens. Perpetual Pink. Double and semi-double, mixed.....20

Plumarius fl. pl., Scoticus. Very hardy; double; 1 foot high; very strongly perfumed.....25

Dictamnus Fraxinella (Gas Plant)

Pkt.

An old-fashioned hardy perennial plant of bushy form, 2½ feet high; the leaves when rubbed give out a lemon odor. Sow seed in spring, or July and August, and transplant where the plants are to remain. When once established, they do not care to be moved. Red flowers.....\$0 10

Dimorphotheca aurantiaca hybrida

(African Golden Daisy)

A very showy annual, from South Africa; will grow well in any situation; likes plenty of sun. The flowers are daisy-like, of different shades of glistening salmon-orange, yellow, and white, and are borne in profusion on compact, bushy plants about 1 foot high; of great value and very showy.....15

Dolichos Lablab (Hyacinth Bean)

A rapid-growing, climbing annual, bearing pea-shaped blossoms and ornamental seed-pods. Grows 12 to 15 feet high. Sow out-of-doors where they are to remain. Mixed, purple and white.....oz. 25c.. 05

Eschscholtzia Californica

Eschscholtzia (California Poppy)

A very popular garden annual, easily grown from seed sown in the open in May where the plants are to remain. The majority of varieties grow about 1 foot high.

Californica, Yellow. Rich yellow.....oz. 40c. \$0 05

Californica, White. Creamy white.....05

Mandarin. Red and orange; beautiful.....05

Rose Queen. Beautiful rose-carmine.....10

Dainty Queen. Delicate pale pink.....10

Mixed. All colors.....oz. 40c.. 05

Euphorbia variegata (Snow-on-the-Mountain)

Very ornamental annual, grown for the pretty foliage, as the flowers are insignificant. Green foliage, veined and margined white.....oz. 40c.. 05

FEVERFEW. See Matricaria, page 9.

FORGET-ME-NOT. See Myosotis, page 10.

Gaillardia grandiflora

Four-o'Clock (Marvel of Peru)

An old-fashioned garden flower, of bushy growth, bearing Pkt. numerous flowers of various bright colors. Mixed...oz. 20c...\$0 05

Gaillardia (Blanket Flower)

The Gaillardia is very popular whether the annual or perennial variety is sown. Both are very bright and showy, and of great value as cut-flowers.

	Pkt.

Mixed.....	05

Heliopsis Pitcheriana

A very desirable perennial plant for the border; grows from 3 to 4 feet high, bearing flowers of a deep golden yellow; very good for cutting..... Pkt. \$0 10

Heliotrope

An old-fashioned, half-hardy perennial, which is very popular as a summer bedding plant; it can be grown in a greenhouse also, giving the house a delightful perfume. Sow seed early indoors; by doing so you will have good plants for summer blooming.

Giant-flowering, Mixed. Very robust growth and fine, large heads of flowers; the best..... Pkt. \$0 10

Hesperis matronalis (Sweet Rocket)

A fine old-fashioned garden plant, attaining a height of 3 feet, and very free-blooming, giving large sprays of fragrant blossoms. The plants when through blooming require to be taken up and transplanted into fresh soil; by doing this you will get far better results. Sow seed in spring.

	Pkt.
Purple.....	\$0 05
White.....	05

Heuchera sanguinea

A very fine perennial plant, growing about 1 foot high, with erect spikes of bright crimson flowers. A fine thing for cutting. 10

Honesty (Lunaria biennis)

A hardy biennial and much admired for its silver, oval-shaped seed pouches. Seed should be sown in June for the following year's blooming..... 10

Hollyhock

This is one of the most popular hardy plants in cultivation, and gives an effect to a garden that no other plant does. It is, without exception, the best plant for grouping amongst shrubbery or furnishing a background for other plants in a border. Seed sown in the spring will give excellent, strong plants for blooming the following year. They require protection, such as covering with leaves or straw the first winter. We offer the very best strain procurable, which is, without doubt, Chater's.

Humulus (Japanese Hop Vine)

A very rapid-growing, annual climber, attaining a growth of from 20 to 30 feet in a season. The foliage is very ornamental, of thick growth, splendid for covering verandas, trellis, etc.; provides good shade and is not subject to being affected by insects of any kind.

Japonicus. The green-leaved variety.....	\$0 05
Japonicus variegatus. Beautiful, silvery variegated leaves; very ornamental.....	10

Hunnemannia fumariæfolia

(Giant Tulip Poppy, or Bush Eschscholtzia)

Although this is a perennial, it is treated as an annual. By sowing it indoors early in spring, it will bloom the end of July. It forms a nice bush, about 2½ feet high, bearing large, rich yellow, poppy-like flowers, and is a good flower for lasting in water a long time. Pkt. \$0 10

HYACINTH BEAN. See Dolichos, page 6.

Ipomœa (Moonflower, Morning-Glory)

See also Convolvulus, page 5.

Climbers of very rapid growth, used for covering old tree stumps, trellises and arbors.

Bona Nox (Evening Glory). Beautiful, large, rosy lilac flowers, opening in the evening.....	Pkt. \$0 05
Mexicana grandiflora alba. The giant white Moonflower very fragrant; opens after nightfall and remains open on cloudy days.....	10
Rubra cœrulea (Heavenly Blue). A very beautiful variety, with immense, sky-blue flowers.....	10
Setosa (Brazilian Morning-Glory). A very quick, robust-growing variety, covered with clusters of rose-colored flowers.....	10
Quamoclit hybrida (Cardinal Climber). A splendid new hybrid between Cypress Vine and <i>Ipomœa coccinea</i> . This certainly is worthy of a trial. It is of strong, rapid growth, with very finely cut, fern-like foliage, which is in itself a treat to look at; but, in addition, has an abundance of dazzling bright scarlet flowers which come in clusters. It is well named on account of its color. Sow seed early; it requires to be hastened in germination by filing or cutting a small notch in each seed.....	25

Imperial Japanese Morning-Glories (Mixed)

These are, beyond all doubt, the finest of all the Morning-Glories; they are easily grown and in beautiful colors and size. Pkt. of flowers have no equal.....oz. 25c...\$0 05

JAPANESE HOP. See Humulus, above.

JOSEPH'S COAT. See Amarantus, page 11.

KENILWORTH IVY. See Linaria, page 19.

Kochia tricophylla (Summer Cypress)

A very good annual, easily grown from seed sown thinly in the spring. It makes a nice hedge or can be grown as specimens on a lawn. Its color is light green, with finely cut leaves, and in late summer and fall it becomes a deep red; grows about 2½ to 3 feet high when grown in good soil.....¼oz. 20c... 05

Kudzu Vine (Pueraria Thunbergiana)

A Japanese perennial climber of very rapid growth, producing large, bold leaves of bright green which make a fine shade. It is a grand thing for covering dead trees and for verandas or trellis. The flowers are small and purple in color. Being a perennial, it attains a height of only about 8 feet the first year from seed, but when established it will grow 50 feet in one season.....¼oz. 30c...\$0 10

Lantana

This is a very fine greenhouse plant, or can be used for bedding out in summer; it is a continuous bloomer and makes trusses of bloom similar to the verbena, but of a varied assortment of colors, ranging from orange to rose. Sow seed early, say February or March, in the house. Pkt.

Mixed Hybrids.....	\$0 10
--------------------	--------

LADY'S SLIPPER. See Balsam, page 13.

Larkspur (Annual Delphinium)

These are very popular annuals, very ornamental and of graceful habit; they have very fine, fern-like foliage, and the flower-spikes are tall and erect, on good, strong stems, fine for cutting. They make a nice bed or dotted in clumps through a border, or in lines are very effective. Sow seed toward the end of April, and they will bloom from July till frost.

Tall Branching. This is the best strain of Annual Larkspurs in cultivation. Pkt.

Nemophila insignis

A very pretty annual of easy culture. Sown early in the spring, will flower about July, giving an abundance of flowers for a long period. Bright blue; makes a very nice pot-plant... 05

Nigella (Love-in-a-Mist)

A compact-growing annual, with very finely cut foliage and peculiarly formed flowers. Sow seed in the open in May, and thin out to about 6 inches apart. Pkt.

Damascena. Blue. A good blue.....\$0 05

Miss Jekyll. A bright, cornflower-blue; one of the best varieties..... 10

Penstemon

This is somewhat like a foxglove, but probably not known so well, although it should be. It is a very attractive perennial, growing 2 to 3 feet, and the colors are far more brilliant than those of the foxglove. Sow seed in early spring, in a pan or box, and transplant out-of-doors about the middle of May.

Large-flowering, Mixed. Comprising many strains and Pkt. beautiful colors.....\$0 15

Pansies

These little plants are favorites with everyone. Seed can be sown in the autumn or spring. The autumn-sown seed flowers in early spring, and if the old blooms are kept pulled off, they will continue giving large blooms quite a long time. Sow seed thinly, during July or August, in a well-prepared bed, partly shaded, of a size convenient for erecting a frame around to protect for the winter, if you prefer; or they can be covered well with salt-hay as soon as the cold weather sets in. By this treatment you will have strong, sturdy plants for setting out the following spring. Pansy seed can also be sown in the early part of the year, say February or March—the earlier the better,—in flat boxes or seed-pans and placed in the greenhouse, hotbed or window; keep them transplanted often so as not to allow them to get soft and spindly; give them air when the opportunity affords. In the varieties we offer you have the best selection that can be desired; it is not a large one but the best.

Elliott's "Springdale" Mixture

This is our own mixture made up of the very best varieties both in Pkt. color and size. We take care not to put in too much of any one color, which is so often found in mixtures. It is, without doubt, the best selection you can have.

Masterpiece. Very large, richly colored blooms, with beautifully curled and crinkled edges.....	1/4 oz. \$1.50..	\$0 25
Madame Perret. A fine strain; large flowers, principally composed of wine and red shades.....	1/8 oz. \$1.00..	25
Large English, Mixed. The old-fashioned Faced Pansies.	1/4 oz. 75c...	10

Giant Trimardeau

This strain of Pansies is remarkable for its immense flowers which grow well above the foliage, and the plants are of a vigorous and compact growth; the flowers are very often beautifully blotched. There are a great many varieties in this strain, far more than we list, but those we mention are really the pick of the bunch.

Faust (King of the Blacks). The "black" Pansy.....	10
Peacock. Large; peacock-blue, edged with white.....	10
Psyche. A beautiful tufted variety; deep violet, evenly edged with white; very unique.....	10

Physostegia Virginica

A very pretty, hardy perennial plant, growing in bush form, 3 to 4 feet, high, and producing quite a number of erect spikes of pink blooms good for cutting. Treat the same as the majority of perennials..... 10

Physalis Francheti

Chinese Lantern Plant

A summer-flowering perennial which is very ornamental on account of its producing sprays of fruit which turn bright red and resemble small lanterns 10

Polyanthus

A free-flowering perennial which beautifies your beds or borders in the spring. Forms trusses of flowers on an erect-growing, strong stem about 6 to 8 inches high; the colors are very bright and effective. Sow seed in early spring in boxes and transplant to open ground when large enough; they can also be sown in a prepared seed bed in the summer for blooming the following spring.

Large-flowering, Mixed.....	Pkt. \$0 10
-----------------------------	-------------

Elliott's "Springdale" Pansies

Petunias

It is hard to beat the Petunia for its variety of colors and its flowering qualities. No matter what garden you visit, you will almost always find a bed or border of Petunias, or pots and porch-boxes full of them. It is one of the most popular flowers for summer, blooming until late in the autumn. It is easily grown from seed, but great care should be taken in the beginning as regards watering, as the seed, being so small, is very often washed out by heavy watering. Sow seed in a hotbed or coldframe, in seed-pans or boxes, during April and May; or these boxes can be placed in a sunny window. When the seedlings are large enough to handle, transplant in other boxes or pots, and when the weather and ground are warm enough outside, plant about 1 foot apart in beds or borders. This refers to the finer double and single sorts; the bedding varieties can be sown out-of-doors in May.

- Single Large-flowering, Mixed. Superb colorings of great Pkt. variety; not fringed.....\$0 25
- Single Large-flowering Fringed, Mixed. Of extra-large size; beautiful colors and richly marked deep throats; finely fringed..... 35
- Double Large-flowering, Mixed. An excellent strain, giving a great percentage of double flowers..... 25

Rudbeckia (Coneflower)

Newmanii. A very showy perennial, with large flowers of deep yellow with black cones; a grand autumn-flowering plant.....

Bicolor superba. An annual variety of great merit; bright yellow, with brown disk; very good for cutting.....		15
--	--	----

Salpiglossis (Painted Tongue)

This plant is not known so much as it should be; it is of easy culture and as a showy plant in the garden it has few equals; the flowers are borne on strong, stiff stems and somewhat resemble a petunia, but the texture of the Salpiglossis flower is very much stronger than the petunia; it is fine for cutting, and the colors are unique. The seed should be sown early in the spring in a hotbed or window, and transplanted out-of-doors as soon as all danger of frost is past. The strain we offer is the best procurable both for color and size. Pkt. Mixed.....\$0 10

Salvia (Scarlet Sage)

We need not say much about this great favorite, only that the seed we offer is the best procurable. It is best to start Salvia seed early, say February or March, in a hotbed or in the house, and transplanted to the flowering quarters as soon as the weather becomes settled and warm; the seed can also be sown out-of-doors in May. Pkt.

Splendens. Fine scarlet; 3 feet.\$0 10

Splendens, Bonfire. Of compact growth, attaining a height of 2 feet, this variety produces an abundance of fine, large spikes of bloom, well above the foliage, of brilliant scarlet.

One of the most popular varieties grown. 10

Splendens, Zurich. A popular, early-flowering, dwarf variety. 20

Schizanthus Wisetonensis (Butterfly Flower)

A very popular annual both for garden and pot culture. It is very easily grown from seed sown early in the spring for summer blooming, and also can be sown in the autumn for winter and spring blooming. It can also be grown to perfection in hanging-baskets. It is such a profuse bloomer that the foliage can hardly be seen; the flowers resemble somewhat certain varieties of orchids, and are of the prettiest blends of colors imaginable. This is one of the best strains; profuse in bloom and in a great variety of colors.\$0 20

Scabiosa (Mourning Bride)

An annual which should be grown more generously than it is, because as a cut-flower it has no equal. It attains a height of 2 feet, and the flowers are double with fine, long, straight stems. It is fragrant to a certain extent. It is easily started from seed and is the better of being transplanted from the seedling bed to its flowering quarters. No garden should be without some of this valuable annual. Pkt.

White.\$0 05

Rose. 15

Violet. 15

Light Blue. 15

Crimson. 15

Mixed. 15

Beauty Stocks. These are giant-flowering, growing about 2 feet high and are excellent for growing during the winter months.

For this purpose the seed should be sown in July or August; if sown in early spring, they bloom from July till frost. Pkt.

Mixed Colors. A very choice mixture.\$0 15

Sweet William

Stokesia cyanea (Cornflower Aster)

A good hardy perennial, of great value as a cut-flower. The Pkt. plant grows about 15 inches high, bearing lavender-blue cornflower-like blossoms in great profusion, from July till frost. Splendid for the hardy border. ¼oz. 30c...\$0 10

SWEET ROCKET. See Hesperis, page 7.

Sweet William

A very popular hardy perennial for beds or borders. Very easily raised from seed, and for colors and cutting purposes it is excellent. Pkt. **Single Mixed** Our best mixtures procurable.oz. 70c...\$0 05

Double Mixed ¼oz. 30c... 10

Verbena

A splendid summer-flowering plant, and for beds and massing it has but few equals. Seed should be sown in the hotbed or house, early in the spring, and transplanted out-of-doors in May. Seed may also be sown in the open in May, and will flower about July.

Scarlet. 10

Mixed. 10

Vinca (Madagascar Perwinkle)

A very ornamental, free-flowering plant, with deep green, glossy foliage, and bright, single blossoms in great profusion. Sow seed early indoors and transplant when the weather is warm. Pkt.

Pure White.\$0 10

White with Rose eye. 10

Rose. 10

Zinnias

The Zinnia is by far one of the most popular of summer-flowering annuals. For making a good show of bloom in the garden it has no equal. The colors are brilliant and dazzling, particularly the crimsons and scarlets. There are several strains of Zinnias, but we do not list them; we have chosen the best, which is an improved giant-flowering strain which has no equal.

SWEET PEAS

In compiling our list of Sweet Peas, we have gone through the varieties, of which there are hundreds on the market at the present day, and quite a few are identical with each other. We have selected the best varieties in each class as to color and quality of flowers; we have done this to help our customers make as good a selection as can be obtained anywhere. There are two classes, the "Spencer" or "Orchid-flowered" and the "Grandiflora" varieties. The first mentioned are much larger in every respect, in length of stem, size of bloom, and often bear four blooms to a stem. They are also beautifully waved, while the others are smaller flowers not waved, but are just as fragrant, and, of course, are not so expensive.

CULTURE OF SWEET PEAS

1 oz. will sow about 35 feet in a single line

Sow seed as early in the spring as the ground can be prepared; select a sunny situation, as they like it. The main thing in growing Sweet Peas successfully is to keep the roots deep and cool. To accomplish this, the soil should be dug from 1½ to 2 feet deep, and incorporate with it some well-pulverized, rotted manure and, if convenient, a little bone meal. When this is done open a trench, or furrow, about 6 inches deep, and sow seed at the bottom of this, in a line, placing the seeds about 3 to 4 inches apart, cover about 1 inch and press down firmly with a board. As the vines grow, this 6 inches of furrow can be filled in gradually by placing the soil carefully around the vines, and when doing this filling-in process a little bone meal will be beneficial. When the vines attain a height that they begin to fall over, they require some wire netting or brush, the latter preferred, which should be from 5 to 6 feet high. Keep the plants well watered during the hot weather, and keep picking the blooms, as it prevents their going to seed and lengthens the flowering period.

The 12 Following Varieties Select Grandiflora Sweet Peas are "The Pick of the Bunch"

Karlsruhe Balcony Petunias.

Karlsruhe Balcony Petunias

Eight years ago, while motoring in Germany, we saw the most beautiful Petunias trained on the iron railings of the balconies of the town hall of Karlsruhe. It was the most effective balcony decoration we had ever seen. There was only one color—a lovely, rich violet-blue, a color never seen in Petunias before, and the front of the balconies was a solid sheet of color. Inquiry developed that these remarkable Petunias were grown by a local specialist, but we were unable to obtain any seed until four years ago, when we got a small quantity from Germany.

We tested these Petunias most thoroughly in the greenhouse, in porch-boxes and in open borders in the garden, and in every position they were most successful and beautiful, and attracted more attention and admiration than any annual we had in our grounds. We hope all of our customers will try at least one packet of these remarkable Petunias, and if only one kind is tried, we suggest the violet-blue as the most distinct and striking; but both colors are effective and lovely. The plants are quite upright in their growth, much more so than other Petunias, and the lovely, large flowers are produced in the greatest profusion throughout the summer and fall, and at this writing, October 29, these Petunias are still in full bloom. We have had a great deal of complaint about this seed failing to grow—undoubtedly due to deep planting, as we grow several thousand plants from the same seed. It should be barely covered. Firm the soil well before sowing and after sowing sprinkle a little sand over the seed. The seed we offer is perfectly fresh, and grown in our nursery last summer.

Karlsruhe Balcony Petunia, dark rich, velvety carmine,
distinct and beautiful25

Plants ready in May, \$1.50 per dozen; \$10.00 per 100.

One packet each of the above for 45 cents, or five packets of any or all varieties for \$1.00.

Vilmorin Single Dahlias

We saw these Dahlias also in Vilmorin trial grounds, and thought them the most beautiful we had ever seen. They were in full flower in July from seed sown in early spring, and can be depended on to flower the same season from spring-sown seed.

Springdale Mixtures for Hay or Permanent Pasture

Good mixtures of grasses and clovers suitable for any soils or situations. Composed of best-grade seeds only. When ordering state whether for heavy or light soil, or whether required for pasture or hay. Sow three to four bushels to the acre. \$4.00 per bushel.

Imperial Salpiglossis

The writer spent some time on the grounds of the large seed growers of England and France last summer, but found nothing so impressive as the Imperial Salpiglossis in the trial grounds of the famous old seed house of Vilmorin, near Paris. These great seedsmen have been working on an improvement of this popular annual for several years, and have produced one of the most beautiful flowering annuals in existence. The colors are rich and beautiful beyond description, fully equal to that of the finest Gloxinias, which they resemble. Of easy culture. Seed should be sown early in the spring in a hotbed or window, and transplanted when weather is settled, or out doors after danger of frost.

High-Grade Recleaned Lawn Seed

Our various mixtures are composed of the finest recleaned seed, and of the highest purity and germination in each instance. We might mention that you can buy Lawn Seed at all Prices. Our mixtures weigh 20 pounds to the bushel. We intend to carry only one grade, and that the best. We also consider, in making up our mixtures, the production of an immediate but permanent effect, by putting such varieties of grasses in our mixtures to produce this.

1 quart of Lawn Seed will sow from 250 to 300 square feet.
